Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to applicant's amendment submitted on September 18, 2006. Examiner acknowledges the amended claims in response to the first office action.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action of May 18, 2006.

Claim 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Raymond et al. (US Patent No. 5,775,331). Please see prior Office action of May 18, 2006 for details of the rejection.

Response to Arguments

Applicant's arguments filed September 18, 2006 have been fully considered but they are not persuasive. Applicant asserts, Raymond does not disclose a device or method for handling diseased tissue nor for electing a diseased tissue deliberately. However, Examiner notes one of the objectives of Raymond's invention is successful localization of a target nerve (Column 5, line 8 – Column 6, line 60). Examiner contends that this localization of a "target nerve" is analogous to the handling or electing of the "diseased tissue," and thus anticipates the present invention as claimed.

Applicant further goes on to argue that Raymond fails to teach or suggest a device or a method that is used to select and/or remove pathologically altered tissue. However, Examiner contends Raymond does anticipate surgical treatment of the selected site (Column 18, lines 22-38), as claimed. Moreover, Examiner points out that

Art Unit: 3736

the selection and/or removal pathologically altered tissue are not in concert with the claimed language. In the claim, the applicant uses "carrying out the corresponding to a surgical treatment..." and does not positively recite the removal of pathologically altered tissue. The applicant should amend the claim to positively recite those limitations lacking from the prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
